Guide users and transfer operational knowledge to the designated contact at FJZ. 指導使用者操作，並向 FJZ 指定的接收窗口移轉系統操作知識。						

工作成果及目標達成狀況

Job description

1. Transfer and deploy MES functions from FVN to FJZ

Successfully completed the transfer and deployment of the following functions from FVN to FJZ: Aruba Order List, PO Commit, HPE Ship Data, Job DownloadDN, Job ArubaB2BSync (Sync 855, Sync 856, and Sync 824), Shipout DCN, Check Pallet In DN.

2. Improve functions and fix issues based on FJZ's deployment requirements

Improved and fixed issues in several functions to support deployment requirements, including RouteView, Shipout DCN, PO Detail in Aruba Order List, and Shipping Process.

3. Provide business logic consultation, coordinate the confirmation of user requirements, and clarify how the functions operate

Worked with FJZ users to confirm their requirements, explained the MES business logic, and made sure everyone understood how the functions work.

4. Answer questions and support the analysis and resolution of issues that arise during deployment.

Supported the local team during deployment by answering daily questions, checking system data, and quickly fixing errors to keep the system running smoothly.

5. Guide users and transfer operational knowledge to the designated contact at FJZ

Trained FJZ users on daily operations and completed the system handover to the local PIC. All assigned tasks have been completed and successfully handed over.
