DCN Business Trip Departure

Detailed Reporting Form for the Arrangement of Personnel Travelling

No.	Name	Employee ID	Department	原始的出差日期	變更後的出差日期	Departure Time	Stopover location	Flight Departure /Arrival Dates&Times	Departure City	Arrival City	Remarks (Main Work)	签证有效日期	盖章停留日期
1	阮福捷 Nguyen Phuc Tiep	V1055767	CNSBG-IT	2026/9/12–2026/11/20	2026/9/12–2026/11/20	2026/11/20	Ha Noi	11/19 Mexico City – Narita, Japan NH179 MEX – NRT 6:00 – 11:55 11/20 Narita, Japan – Ha Noi, VN NH897 NRT – HAN 18:40 – 23:05	Narita, Japan	Ha Noi	To support Dora L10 control build in FJZ	2026/05/21~2026/11/21	2026/12/11

Explanation for travel application of less than 6 months: The FVN IT department is currently coordinating with the FJZ team to implement the DORA L10 Control Build plan. According to the original plan, my business trip was scheduled to continue until 20/11/2026. However, according to the notification from the FJZ Project Manager (PM), the Aruba support project in Mexico was completed on 24/10/2026, and I could have concluded my business trip early at that time.While awaiting confirmation of my return flight, I was unable to purchase a ticket for the planned departure date of 24/10/2026. On 28/10/2026, I received confirmation that continued support for ODM Juniper was required. Therefore, I need to continue my business trip in Mexico until 20/11/2026 to complete the ODM Juniper support tasks, while also monitoring and resolving any Aruba-related issues that may arise.Based on the current work requirements and scope, a total business trip duration of 70 days, ending on 20/11/2026, is sufficient to complete the support work and handover before returning home. Therefore, I respectfully request that the duration of my business trip be adjusted to 70 days (instead of 6 months)..
